## DAY 6: DEPARTURE WITH A TWIST

Today you will be picked up and taken to the Blue Lagoon geothermal spa. The waters there are rich in silica and blue-green algae, giving the lagoon its reputed healing powers and signature blue colour. Relaxing in-water massages are available (optional; best if booked well in advance), and guests can unwind in the saunas and steam baths or get a natural massage under the Blue Lagoon waterfall. The spa provides a wonderful last memorable taste of Iceland, and ensures that you are fully rejuvenated when taken to Keflavik Airport in time for your check-in. (Note: If your flight is in the morning, we can change your travel itinerary accordingly.)

*Please be advised that daylight is limited in Iceland during the winter months, with about 4-5 hours of daylight during the holidays, from December to January. Winter in Iceland is considered to be from October to April.*
