Start the day by meeting your private driver-guide after breakfast at your hotel and begin your journey to the idyllic Icelandic countryside. First, you'll pass by the bountiful **Borgarfjörður** area on the west coast of Iceland. For those interested in the history of Iceland, we recommend a visit to the Icelandic Settlement Centre in the town of Borgarnes.

You will then visit **Hraunfossar**, a series of waterfalls flowing from a stark lava field into a river below. Admire the neighbouring **Barnafoss** waterfall and later the **Deildartunguhver** hot spring. You might want to visit Krauma geothermal baths before you head to Hotel Húsafell, located in scenic surroundings.

At night, now that you're in the countryside, be sure to step outside your hotels each night and see if the northern lights decided to make an appearance. The remote location of most of your hotels is ideal!

Spend the night at **Hótel Húsafell (Deluxe)**.

Average Driving Distance: 196km / 121 mi.

Average Travel & Exploring Duration: 8-9 hours

Attractions: Borgarfjörður, Deildartunguhver, Hraunfossar & Barnafoss, Húsafell, Reykholt

DAY 3: GLACIER ADVENTURE & HÚSAFELL CANYON BATHS

Today you will visit **Langjökull** glacier where you will experience a truly icy adventure, venturing inside a glacier! During this unique tour, you will have the chance to experience the actual ice in Iceland, with a guided group tour inside the island's second largest glacier. An enormous modified truck, outfitted for the glacier, will transport you to the manmade tunnel, which exposes the beautiful blue ice and allows you to see crevasses and the glacier's unique characteristics.

If you would like to add more adventure to the day, you can opt for a snowmobiling tour on Langjökull combined with Into the Glacier.

After visiting the Ice tunnel, you will warm up at the heavenly Húsafell Canyon Baths. Its geothermal pools are nestled in a magnificent highland canyon. As you relax, you can admire and soak in the wilderness of Iceland in peace

DAY 4: GOLDEN CIRCLE IN THE TRANQUILITY OF WINTER

Today's journey brings you up close and personal with some of Iceland's most popular south Iceland attractions along the classic Golden Circle route.

Start with a visit to the fascinating **Pingvellir National Park**, a UNESCO World Heritage Site. If it's snowy you will see its charming winter look! Here, you can walk on a path in the rift valley between the North American and Eurasian tectonic plates and learn about the first site of Iceland's democracy.

Next on the route is the Haukadalur geothermal area, where you can see **Geysir** - the original "geyser" - and its more active neighbour Strokkur, which spouts water and steam metres into the air every few minutes. This natural sight is especially lovely in a winter setting.

End the day's adventure with a visit to the two-tiered, roaring **Gullfoss** waterfall, one of Iceland's most memorable sights, before journeying on to your premium hotel for the night.

Spend the night at **Hotel Geysir (Suite)**.

Today you create your own adventure. You can visit some sights of the **Golden Circle** that you missed or want to see again, or you could add on attractions like the Faxi waterfall and the charming Friðheimar farm.

At Friðheimar you can tour the tomato greenhouses, buy local products from the market, and even enjoy a tomato-based lunch (meal must be booked in advance). You can also choose to go on an optional activity like snorkelling in Þingvellir National Park.

DAY 6: SOUTH COAST, WATERFALLS & BLACK SAND BEACHES

This morning, get back on the road with your guide and take the scenic journey to two beautiful waterfalls along the south coast, **Seljalandsfoss** and **Skógafoss**, which are especially lovely in the soft winter light.

Seljalandsfoss is situated along the Seljalandsá river where the waterway plummets 40 metres over a cliff face. Seljalandsfoss is unique among waterfalls as the shape of the cliff allows visitors to walk behind the cascade via a footpath at the base of the falls. Be careful as it can be slippery in winter!

Meanwhile, Skógafoss is a magnificent 60-metre-high waterfall and one of Iceland's most photogenic landmarks. Before arriving at the village of **Vík**, you will visit the black volcanic beach south of the village, from where you can view the unique rock formations **Dyrhólaey and Reynisdrangar**.

This is one of Iceland's best known and most photographed locations where, from the shore, you can see large icebergs bobbing in the water. Afterwards you will stop by the **Diamond Beach**, where you will see chunks of ice glistening on the black sands.
