Start the day by meeting your private driver-guide after breakfast at your hotel and begin your journey to the idyllic Icelandic countryside. First, you'll pass by the bountiful **Borgarfjörður** area on the west coast of Iceland. For those interested in the history of Iceland, we recommend a visit to the Icelandic Settlement Centre in the town of Borgarnes.

You will then visit **Hraunfossar**, a series of waterfalls flowing from a stark lava field into a river below. Admire the neighbouring **Barnafoss** waterfall and later the **Deildartunguhver** hot spring. You might want to visit Krauma geothermal baths before you head to Hotel Húsafell, located in scenic surroundings.

At night, now that you're in the countryside, be sure to step outside your hotels each night and see if the northern lights decided to make an appearance. The remote location of most of your hotels is ideal!

During this unique tour, you will have the chance to experience the actual ice in Iceland, with a guided group tour inside the island's second largest glacier. An enormous modified truck, outfitted for the glacier, will transport you to the manmade tunnel, which exposes the beautiful blue ice and allows you to see crevasses and the glacier's unique characteristics.

After visiting the Ice tunnel, you will warm up at the heavenly Húsafell Canyon Baths. Its geothermal pools are nestled in a magnificent highland canyon. As you relax, you can admire and soak in the wilderness of Iceland in peace.

Today's journey brings you up close and personal with some of Iceland's most popular south Iceland attractions along the classic **Golden Circle** route.

Start with a visit to the fascinating **Pingvellir National Park**, a UNESCO World Heritage Site. If it's snowy you will see its charming winter look! Here, you can walk on a path in the rift valley between the North American and Eurasian tectonic plates and learn about the first site of Iceland's democracy.

Next on the route is the Haukadalur geothermal area, where you can see **Geysir** - the original "geyser" - and its more active neighbour Strokkur, which spouts water and steam metres into the air every few minutes. This natural sight is especially lovely in a winter setting.

End the day's adventure with a visit to the two-tiered, roaring **Gullfoss** waterfall, one of Iceland's most memorable sights, before journeying on to your premium hotel for the night. If you are lucky, you may catch a glimpse of the northern lights dancing in the dark night sky.

If you want to visit the south coast, your private guide will take you to the fairytale-like **Seljalandsfoss waterfall**, where you can have the unique experience of walking directly behind the misty cascade. Be careful as it can be slippery in winter! Next, you will visit the gorgeous 60-metre tall **Skógafoss waterfall**, which is just a short drive down the road. It's a perfect place to take photos and roam the beautiful surroundings.

After the last few days of adventure on the road, it's time to relax, unwind and enjoy the natural surroundings in the lava fields dotting the Reykjanes peninsula. Your guide will drop you off for a luxury stay at the **Blue Lagoon** and Retreat Spa.
